University of Bonn
Poppelsdorf Seminar Series

2026 - 2027

SNACKS AND DRINKS AFTER THE SEMINAR

Tuesdays at 12.00

13 October 2026
Violette Geissen
Wageningen University & Research, The Netherlands
Lessons learned from large scale monitoring of pesticide residues across ecosystems and humans for advanced risk assessment: The SPRINT One Health Approach
venue: Poppelsdorfer Schloss Hörsaal

10 November 2026
Ylva Ivarsson
Uppsala University, Sweden
Decoding how short protein motifs shape cellular and viral interaction networks
venue: Poppelsdorfer Schloss Hörsaal

26 November 2026 [Thursday!]
Johannes Herrmann
RPTU University Kaiserslautern-Landau, Germany
Mitochondrial protein biogenesis: A big challenge for eukaryotic cells
venue: Institute of Biochemistry and Molecular Biology

12 January 2027
Thomas Clavel
Uniklinik RWTH Aachen, Germany
Gut feeling: a short story about your microbes
venue: LIMES

9 February 2027
Karen Miga
UC Santa Cruz, USA
Ttitle to be announced
venue: Poppelsdorfer Schloss Hörsaal

9 March 2027
Adolfo Saiardi
University College London, UK
Navigating the Labyrinth of Inositol Phosphate Signaling
venue: Poppelsdorfer Schloss Hörsaal

11 May 2027
Bart Deplancke
EPFL, Switzerland
Decoding cell states: from transcription factor dose to cellular morphology
venue: Poppelsdorfer Schloss Hörsaal

8 June 2027
Uri Alon
Weizmann Institute of Science, Israel
Physiological cliff at menopause revealed from 300 million lab tests
venue: Poppelsdorfer Schloss Hörsaal
